🔗 Portfolio

PROFESSIONAL SUMMARY

Front-End Developer with 2+ years of experience building scalable and high-performance e-commerce applications using React.js and Magento 2, currently gaining hands-on experience with Next.js. Specialized in developing Progressive Web Apps (PWA) and integrating GraphQL APIs to deliver fast, responsive, and user-centric experiences. Proven ability to improve application performance, optimize UI/UX, and collaborate with cross-functional teams to deliver production-ready solutions.

PROFESSIONAL EXPERIENCE

Crocoit, Front-End Developer

05/2024 – Present

Cairo, Egypt

Confidential Online Learning Platform (In Progress) | React.js, Next.js

- Developed a scalable platform for delivering online medical courses
- Integrated RESTful APIs for efficient data fetching and seamless frontend-backend communication
- Implemented SSR using Next.js to improve performance and SEO
- Built reusable UI components and optimized application structure
- Handled API error states and loading states to ensure a smooth user experience
- Collaborated with cross-functional teams to deliver a high-quality user experience

Almasry Pharmacy 📄

Magento 2, React.js, PWA

- Developed a Progressive Web App (PWA) with offline support and push notifications to enhance user engagement
- Built responsive product catalog, cart, and checkout flows using React.js with state management
- Applied mobile-first design principles to ensure a seamless experience across devices
- Optimized application performance and loading speed to improve overall user experience

Etlala 📄

Magento 2, GraphQL

- Developed and customized Magento 2 storefront themes to match brand identity and UX requirements.
- Integrated GraphQL APIs for efficient data fetching and seamless frontend-backend communication.
- Collaborated with backend developers and designers to deliver a fully functional e-commerce experience.

Alsannat for Luggage 📄

Magento 2, React.js, PWA

- Developed a scalable e-commerce frontend integrated with Magento 2 backend
- Implemented a Progressive Web App (PWA) to enhance mobile performance and offline accessibility

- Integrated GraphQL APIs for efficient data fetching and optimized state management
- Improved application responsiveness and ensured cross-browser and cross-device compatibility
- Collaborated with cross-functional teams to deliver a high-performance and user-centric application
